Gagasan MEMAHAMI ISLAM MEMBINA PERADABAN

MEMAHAMI ISLAM

Sebagai agama fitrah, Islam sesuai untuk semua Manusia di muka bumi ini. Al-Quran mengemukakan tiga prinsip utama dalam menyusun dan membina peradaban iaitu kebenaran, keadilan dan kasih sayang. Penghayatan prinsip-prinsip ini akan melahirkan masyarakat yang hidup sejahtera, harmoni dan saling hormat menghormati. Islam juga harus difahami sebagai agama (*al-din*) yang mendidik dan bukan semata-mata menghukum.

UNDERSTAND ISLAM

*Being a religion which is in harmony with human nature, Islam is suitable for all men. The Quran puts forth three main principles in structuring and building civilisation that are truth, justice and affection. Appreciating these principles will bear a society living in prosperity, harmony and mutual respect. Islam has to be understood as a religion (*al-din*) that educates rather than one that merely punishes.*

MEMBINA PERADABAN

Membina peradaban umat manusia merupakan wawasan besar yang wajib didokong oleh semua pihak. Peradaban akan terbentuk melalui ilmu pengetahuan yang dihayati sepenuhnya. Ilmu yang benar akan memajukan masyarakat dalam semua bidang kehidupan.

IKIM akan terus komited menyampaikan ilmu pengetahuan melalui perbincangan ilmiah dari semasa ke semasa dari pelbagai sudut seperti sosiobudaya, ekonomi, politik, perundangan, hubungan antara agama, alam sekitar serta sains dan teknologi.

BUILD CIVILISATION

Building human civilisation is a lofty vision that has to be shouldered by all quarters. Civilisation will be shaped through knowledge that is entirely internalised. True knowledge will advance society in all fields of life.

IKIM will continue to be committed to conveying knowledge through academic discussions from time to time from various aspects such as socioculture, economics, politics, legislation, inter-religious relations, environment as well as science and technology.

Hasil dapatan penyelidikan ini telah dibincang di dalam program-program anjuran IKIM seperti seminar, muzakarah pakar, penulisan artikel di akhbar, majalah, siaran di dalam rancangan radio IKIMfm, penerbitan buku dan modul agar hasilnya dapat disampaikan kepada masyarakat dan memberi manfaat kepada orang ramai.

Pusat Perundingan dan Latihan IKIM (PPLI) terus mendapat keyakinan daripada agensi luar dalam menganjurkan bengkel-bengkel berkaitan perundingan dan kemahiran. Sebanyak 23 program telah dilaksanakan antaranya Kepimpinan Amirul Mukminin; Islah dan Mengurus Perubahan; Intergrasi Komuniti; Ketarasedar; dan Majikan yang Adil : Pekerja Amanah.

Rancangan bersifat ilmiah telah diisi oleh para pegawai akademik IKIM yang menumpukan penerangan semua cabang ilmu seperti ekonomi, undang-undang, sains, alam sekitar dan

Pusat Kajian Ekonomi dan Kemasyarakatan atau ringkasnya EMAS merupakan salah satu daripada tiga buah pusat akademik yang terdapat di Institut Kefahaman Islam Malaysia (IKIM). Sebelum dikenali sebagai pusat EMAS yang memberi tumpuan dalam bidang ekonomi dan kemasyarakatan, ia merupakan sebuah pusat akademik yang turut memfokuskan penyelidikan di dalam bidang sains dan teknologi. Bagaimanapun pada 2004, IKIM telah menstruktur semula pusat ini dengan mengeluarkan bahagian yang berkaitan dengan sains dan teknologi tersebut untuk dijadikan sebagai sebuah pusat yang berasingan. Oleh itu, mulai 1 Februari 2004, pusat ini dikenali sebagai Pusat Ekonomi dan Kajian Sosial. Bagaimanapun selepas penjenamaan semula yang dilakukan oleh IKIM pada 2010, pusat ini mula dikenali dengan namanya sekarang iaitu Pusat Kajian Ekonomi dan Kemasyarakatan.

Tumpuan dan Luasan Kajian:

- Ekonomi
- Kewangan
- Pengurusan
- Pendidikan
- Hubungan Antara Penganut Agama
- Kesihatan Mental
- Isu Kemasyarakatan

The Centre for Economics and Social Studies, or its Malay acronym, EMAS, is one of the three academic centres at the Institute of Islamic Understanding Malaysia (IKIM). Prior to the name change to EMAS which gives focus on the fields of economics and social sciences, it used to be an academic centre that focussed on research in the fields of science and technology as well. In 2004, IKIM underwent a restructuring where the fields of science and technology were removed from the centre so that it would be separated to a centre of its own. Thus, on 1 February 2004, the centre formally acquired its name as Centre of Economy and Social Studies. However, upon a rebranding exercise by IKIM in 2010, the centre is formally known by its present name, Centre for Economics and Social Studies.

Focus and Scope of Research:

- Economy
- Finance
- Management
- Education
- Inter-Religious Relations
- Mental Health
- Societal Issues

Pusat Kajian Sains & Alam Sekitar (KIAS) Centre for Science & Environment Studies

Secara umumnya, orientasi KIAS dari segi akademik menyerupai tumpuan dan luasan pusat atau jabatan di institusi-institusi pengajian tinggi yang mengendali lapangan atau bidang yang dikenali sebagai Pengajian Sains dan Teknologi atau *Science and Technology Studies* (STS). Bidang ini dari sudut hubungannya dengan pelbagai bidang sains tulen bersifat *meta-discipline* atau *second-order discipline* dan menjurus kepada penyelidikan dan penelitian ilmiah tentang isu-isu pemikiran dan falsafah, nilai dan akhlak, sosio-ekonomi-politik dan yang seumpamanya yang terbit dari atau melatarbelakangi perkembangan dan pembangunan Sains dan Teknologi.

In general, the orientation of KIAS from the academic aspect is similar to the focus and scope of centres or departments in other institutions of higher learning which offer the field known as Science and Technology or Science and Technology Studies (STS). Such a field from its relation to various fields of pure science is, by nature, meta-disciplined or is a second-order discipline and inclined towards academic research and detail on issues of thought and philosophy, values and moral, socio-economic-politics and such like which arise from or create a background of the development and development of Science and Technology.

Pusat Kajian Syariah, Undang-Undang & Politik (SYARAK) *Centre for the Study of Shariah, Law & Politics*

Menelusuri sejarah penubuhannya, iaitu pada tahun 1992, Pusat SYARAK bermula dengan Unit Syariah dan Undang-Undang dan kemudiannya ditukar kepada Pusat Syariah, Undang-Undang dan Sains Politik pada tahun 2001. Dengan matlamat memenuhi keperluan semasa dan cabang ilmu yang luas selain memperluas skop penyelidikan agar mencakupi kajian akademik yang menyeluruh sifatnya, perubahan nama Pusat sekali lagi dilakukan, iaitu pada 1 Januari 2010, iaitu sebagai Pusat Kajian Syariah, Undang-Undang dan Politik atau ringkasnya dikenali sebagai SYARAK.

Since its establishment in 1992, SYARAK began as Shariah and Law Unit after which it had a name change to Centre of Shariah, Law & Political Science in 2001. With its objectives of fulfilling current needs and a wide branch of knowledge as well as widening its research scope to encompass academic studies that are holistic in nature, the Centre had another name change on 1 January 2010, to Centre for the Study of Shariah, Law & Politics, or briefly, SHARAK.

Menyedari kepentingan bidang bitara khusus bagi memastikan aktiviti dan sumbangan yang diberikan memenuhi keperluan semasa masyarakat, *Maqasid al-Syari'ah* dipilih sebagai bidang tara Pusat SYARAK. Sehubungan itu, seminar yang dianjurkan bertemakan isu-isu berkaitan dengan *Maqasid al-Syari'ah* dalam segenap bidang terutamanya, pendidikan, ekonomi, siasah, dan perundangan. Demikian juga dengan aktiviti penyelidikan yang dijalankan oleh kakitangan akademik Pusat ini yang turut diasaskan pada kerangka dan tema yang sama.

Realising the importance of a specialised area to ensure the activities and contributions it provides fulfil the needs of the present society, Maqasid al-Shari'ah has been chosen as the area of specialisation of SHARAK. Thus, seminars conducted by SHARAK carry the theme of issues related to Maqasid al-Shari'ah in all fields in particular, education, economy, politics and legislation. Similarly, research activities conducted by academic staff of SHARAK are also based on the same framework and theme.

Pusat Perundingan dan Latihan (PPLI) *Centre for Consultancy and Training*

Bagi memperluaskan aktiviti IKIM, Pusat Perundingan dan Latihan IKIM (PPLI) telah ditubuhkan pada tahun 2000. Ia ditubuhkan khususnya bagi memenuhi permintaan organisasi luar yang mahu IKIM menyediakan modul latihan, dan seterusnya melatih warga kerja mereka dengan nilai-nilai murni Islam. Kini, PPLI beroperasi dengan misi, "Berusaha Ke Arah Pengendalian Aktiviti Perundingan Dan Latihan Yang Berkualiti Dalam Menambah Kefahaman Islam". PPLI menawarkan khidmat perundingan dan latihan kepada organisasi yang berminat, sama ada kerajaan mahupun swasta. Di masa yang sama, PPLI juga menganjurkan program-program latihan untuk masyarakat umum. Adalah diharapkan, melalui program-program latihan ini, kefahaman Islam dapat ditingkatkan dan kekeliruan mengenai Islam dapat diminimalkan. Dengan kefahaman Islam yang sebenar, potensi diri insan akan terserlah dan ini akan menjadi faktor pendorong kepada kecemerlangan diri, keluarga, organisasi dan ummah.

To expand the activities of IKIM, IKIM Centre for Consultancy & Training (PPLI) was established in 2000. Its establishment was specifically to meet the needs of external organisations which required IKIM to prepare training modules, and subsequently train their staff with pure Islamic values. Currently, PPLI operates on the mission, "To strive towards the management of quality consultancy and training activities in enhancing Islamic understanding". PPLI offers consultancy and training services to interested organisations, be they public or private. At the same time, PPLI also organises training programmes for the general public. It is hoped that such training programmes could enhance Islamic understanding while misconceptions on it could be minimised. With true Islamic understanding, the potential of individuals may be revealed and this could be the motivating factor for the self-excellence of family, organisation and the ummah.

Perkhidmatan Latihan & Perundingan

Modul latihan PPLI terbahagi kepada empat (4) jenis:

i. Modul Latihan Karya Asli

Modul yang dibina sendiri oleh PPLI dengan idea asal yang terbit dari IKIM.

iv. Modul Latihan Kerjasama Rakan Pintar

Modul yang dianjurkan secara bersama oleh PPLI dan Perunding Luar yang mempunyai matlamat yang sama.

PENYELIDIKAN 2014
2014 RESEARCH

Penyelidikan Research

Tahun 2014 merupakan tahun di mana berbagai penyelidikan telah dilaksanakan oleh para penyelidik/ahli akademik IKIM. Walaupun demikian, dengan jumlah ahli penyelidik yang agak kecil jika dibandingkan dengan badan-badan seperti universiti-universiti misalnya, skop penyelidikan yang dilaksanakan, amat luas.

Tajuk-tajuk penyelidikan yang dilaksanakan oleh ahli-ahli IKIM ditambah lagi signifikansnya dengan kerjasama yang dijalinkan dengan berbagai agensi kerajaan dan bukan kerajaan seperti universiti, agensi-agensi kerajaan dan persatuan-persatuan di peringkat lokal dan global. Ini bermakna dari segi impak kepada masyarakat dan negara.

IKIM ternyata memainkan peranan yang amat bermakna di dalam menjana ilmu dan meningkatkan kefahaman masyarakat tentang Islam dan kaitannya dengan berbagai aspek kehidupan. Di antara contoh kajian-kajian yang berimpak tinggi ini termasuklah yang melibatkan bidang pendidikan, alam sekitar, hak-hak pengguna, ekonomi, keharmonian di antara penganut agama, sains dan teknologi terkini dan lain-lain.

Twenty fourteen has been a year in which various research projects were conducted by IKIM's researchers and academic members. Despite its small number of researchers if compared to universities for example, the scope of research conducted, even so, is quite wide.

The research projects conducted by IKIM's researchers is of extra significance because they were conducted in cooperation with various government and non-government agencies such as ministries and associations at the local and global levels. This is meaningful terms of its impact on society and the nation.

IKIM clearly plays a highly meaningful role in generating knowledge and enhancing society's understanding about Islam and its relation to the various aspects of life. Amongst the high impact research includes those in the field of education, environment, consumers' rights, economy, harmony amongst religious adherents, as well as the state of the art in science and technology and others.

The background of the slide is a light cream color. In the upper left, there is a faint, large watermark of a traditional Islamic geometric pattern. The central focus is a photograph of a two-story building with a red-tiled roof and a series of arched windows and doorways. This photograph is partially obscured by vibrant, expressive brushstrokes in shades of yellow, orange, red, and blue. To the right of the building, several long, thin, curved lines in purple, blue, and green sweep across the frame. On the far right edge, there is a vertical bar with a green rectangular block at the top and a light blue-grey section below it.

Nation-building through patriotism

Love for one's country is undoubtedly a good trait that imbues people with a sense of loyalty and a desire to coexist peacefully with others, regardless of religion and cultural background.

As recorded in the history of Islam, when migrating (Hijrah) to Madinah and having successfully established a Muslim state there, the Prophet Muhammad could still hardly forget the place he came from.

The feelings of attachment and love to the land where one was born and grew up are natural. With the passage of time, the love and affection for the land where one was born and grew up are still there, but it is not that you people expected like from you, I would not have lived to other than this.

In addition, loyalty to the homeland will ensure that the state will stay away from the hands of those who will fight tooth and nail to keep the sovereignty and dignity of their nation intact.

Islam, too, does not prohibit Muslims from expressing loyalty to their motherland or the country where they live.

Promoting charity via 'waqf'

'Waqf' matters can be rather technical, which could be the reason why many Muslims today are unable to perform this great deed.

Waqf, or the plural waqaf, is an Islamic instrument of wealth distribution that if properly structured and administered can provide perpetual benefit to the entire society.

Unavoidably, the historical significance of waqf in Islamic history cannot be overemphasised about the instrument was used to provide everything to society, including hospitals, schools, roads, bridges, orphanage shelters and others.

In a hadith narrated by Abu Huraira, the Prophet (peace be upon him) said: "Whoever gives a charity or knowledge, by which the world is benefited, he will be rewarded like the person who gave the entire world."

From the Islamic worldview, the objective of establishing a waqf is solely to achieve al-falah (being successful in this world and in the hereafter). Meaning which, the instrument is underpinned by one's faith in the belief that there is another

Waqf is a public financial instrument that can be used for providing good for the community.

Drug control and human rights

Parliament should not just give the Dangerous Drugs Act a sixth 'term', but should make it a permanent law.

DRUG abuse is currently the most serious threat to the health of the Malaysian community. The number of deaths caused by drug abuse has increased from 1,000 in 2007 to 1,500 in 2012. The number of deaths caused by drug abuse has increased from 1,000 in 2007 to 1,500 in 2012.

Malaysia's strictest penalty for drug crimes seems to have failed to deter drug traffickers and drug addicts.

A wasted, empty life

Some think religion and ethics are obstacles to unlimited 'development' and 'progress', but they are restraints that can free a community from self-destruction.

From its first day to this, sheer greed was the driving spirit of civilisation.

The economic significance of awqaf

There is a positive correlation between private sector participation in the economy and national economic progress.

THE discussion of the limitations and mechanisms of awqaf in the current economic environment can be seen as a challenge to the public sector's role in the economy.

The ability to harmonise the role of the private sector and the public sector in the economy is the beginning for the success of an economic system.

Differences can be blessings

It is through continuous debates that ideas are refined and solutions to problems are sought.

As disagreements aim at proper understanding, reason should prevail in any circumstance.

Ensuring justice for maigned ketum

The plant has healing properties and should not be sacrificed because of human ignorance.

RECENTLY a religious edict was issued in one of the peninsular states prohibiting the use of ketum leaf and its products.

The ketum plant, *Mitragyna speciosa*, grows in the form of 12 to 20-foot tall trees, with large dark green leaves. In our part of the world the ketum is native to places like Northern Malaysia and Southern Thailand. In the Thai language it is called kratom.

The fatwa committee concerned also suggested that the misuse of ketum leaves should be a part of the Dangerous Drugs Act (DDA) 1952 (Act 234), instead of just the Poisons Act 1952 (Act 366). The latter only carries the maximum penalty of RM10,000 or four years in prison, and therefore has less deterring effect compared to the DDA.

No one will probably deny the social ills, medical costs and criminal activities (for example, smuggling) associated with the abuse of ketum in Malaysia.

In Thailand, in fact, the Kratom Act has been enforced since 1943. This act also makes it mandatory for living/existing trees to be cut down. Is it any wonder that ketum smugglers (Malaysian or otherwise) are willing to risk being caught because of the "high" prices offered?

A cursory view of the information available tells us that the ketum possesses unique and important properties that have not been satisfactorily

Identifying the real extremists

It is difficult to define someone who recognises no limits, if the definition of limits is constantly changing.

ACCORDING to the West, Abu Bakr al-Baghdadi, the leader of the Islamic State of Iraq and the Levant (ISIL), is the world's most dangerous extremist. Is this a fair statement?

An extremist is a transgressor, who recognises no limit in his mind, body, defined as such, an extremist is not necessarily an Arab or a Muslim, as it is commonly portrayed in the media.

He could possibly be a Christian, a Buddhist, a secular democrat, a scientist, a human rights activist or a feminist.

What makes al-Baghdadi an extremist in the eyes of the West is perhaps his terror tactics, but the same could be said of George W. Bush and Tony Blair, who are responsible for the deaths of hundreds of thousands of innocent Iraqis.

Being elected through a democratic process does not give them the right to determine the life or death of the rest of the world. But Blair did to the Iraqis, and that has made them the extremists in the eyes of the world.

In the definition above, it is for everything for it to be rendered good and acceptable.

So an extremist is not a good person because he transgresses what others consider as the limit.

of whether he does not know the limit or he simply does not want to honour it knowingly.

But the real problem is, what are those limits? And on whose authority are they to be accepted as the limit that everyone has to observe?

In the man-made system known as democracy, man is said to be the measure of everything, so the limit of man is actually determining the fate of the world today?

What is the idea that governs his actions and behaviour, like his ideas about truth and reality? About right and wrong? And about happiness?

For a secular world view based on physical reality, reality is limited to physical reality and truth to factual scientific truth. Based on this, he has developed a peculiar idea about happiness and morality that is basically in constant change.

A secular world view lacks permanence because of its affirmation and preoccupation only with the transient of existence. In fact, it is the rejection of anything permanent.

So by nature this world view actually has no place for god and religion, which is the foundation of human civilisation.

stood by "god" and "religion" must also be open to change and reinterpretation.

Coming back to our definition of extremism, we must conclude in the end that secularism is itself intrinsically an ideology that recognises no limit. It is based upon the rejection of a permanent truth and reality, making it impossible to agree upon a definition.

Ikim Views
MD. ASHAM AHMAD

that a definition of something could and should change with time.

Not knowing the definition is a simple ignorance that can be easily remedied by imparting the knowledge. But when the person is bent on believing that no definition is forever fixed, something is appallingly wrong with his way of thinking. It is an indication that his belief is characteristically similar to that of the secular man that we have described above.

The so-called jihadis are extremists by virtue of their ignorant rejection of important definitions agreed upon by Islamic scholars throughout the ages. Inspired by the misguided Wahhabi ideology, they have caused great confusion and disunity among the Muslims worldwide.

They are the ones portrayed in the Western media as the Sunnis, yet the title has nothing to do with Islamic orthodoxy known as Ahl al-Sunnah wa al-Jama'ah. The term "Sunnis" was hijacked by the fanatic Wahhabis, who have neither respect towards nor affiliation with scholarship. They are the ones who have caused a great anxiety to the West and the world today; yet both are similar in one respect: they do not know the limit.

Langkah ini turut perlu melibatkan usaha menyaring guru-guru PI dan seterusnya merangkul proses pemupukan pelapis mahaguru pada peringkat pengajian tinggi, khasnya dalam Pelan Strategik Pengajian Tinggi Negara (PSPITN) yang sedang disemak semula.

Justeru, banyak pengajaran yang dapat ditimba daripada pendekatan langsung para ilmuwan Islam itu yang telah lebih dahulu berinteraksi dengan tokoh-tokoh terkemuka pelbagai agama dan tamadan awal itu sambil menerajui Dialog Peradaban Tahap Tinggi dan merintis penerokan cabang-cabang ilmu baharu.

WAWANCARA di MEDIA

Temuramah di televisyen, radio, akhbar dan majalah amat berkesan untuk menerangkan isu-isu semasa berkenaan Islam. Usaha melalui wawancara di media elektronik dan cetak ini dengan capaian penonton, pendengar dan pembaca yang ramai diharap dapat memperbetulkan salah faham mengenai Islam di samping meningkatkan kefahaman mengenainya dari masa ke semasa. Penjelasan dan hujah ini telah membantu orang ramai memahami isu-isu Islam semasa yang timbul.

Di antara isu-isu yang telah dirungkai oleh para pegawai akademik IKIM ialah pengajaran daripada sambutan Maulidur Rasul, kenaikan kos sara hidup, pluralisme, jihad menurut perspektif Islam, keharmonian antara penganut agama, hudud, waqaf dan pembangunan ummah serta *teknologi da'wah*.

Kerjasama baik antara IKIM dan media telah memudahkan usaha-usaha ini dan amat dihargai.

INTERVIEWS in the MEDIA

INTERVIEWS on television, radio, the press and magazines are highly effective in explaining current issues on Islam. Such efforts in the electronic and print media with a high number of audience, listeners and readers can effectively correct misconceptions held on Islam in addition to enhancing the understanding of the religion from time to time. Explications and reasonings of Islam have helped many to understand current issues on the religion that arise in a much better way.

Among the issues explained by IKIM academicians were the lessons derived from Maulidur Rasul celebrations, the hike in living costs, pluralism, jihad according to the Islamic perspective, harmony among religious adherents, hudud, waqaf, ummah development as well as the role of *techno da'wah*.

The good cooperation that are forged between IKIM and the media has helped to enhance such efforts and is very much appreciated.

Institusi wakaf jana ekonomi ummah

Pengurusan telus tingkat semangat menyumbang secara sukarela

HASLIZA HASSAN

hasliza_hassan@ikim.com.my

P erubahan mengenai wakaf menjadi lebih hangat apabila banyak perkara dibangkitkan mengenai peranan amalan wakaf dalam membangunkan ekonomi umat Islam khususnya serta beberapa bidang lain yang matlamatnya memberi manfaat kepada kesejahteraan ummah.

Suasana Dewan Utama Institut Kefahaman Islam Malaysia (IKIM) kian bersemangat apabila banyak contoh kejayaan amalan wakaf dikongsi peserta serta ahli panel seminar ‘Mempromosikan Wakaf Sebagai Kaedah Arus Perdana Dalam Polisi Ekonomi Nasional’ anjuran IKIM.

Antaranya, kejayaan Universiti Al-Azhar di Mesir yang dibina atas tanah diwakafkan dan pengurusan wakaf disokong dengan sumbangan wakaf sejak 800 tahun dulu melahirkan graduan yang berjaya hingga ke hari ini.

Begitu juga kejayaan 62 daripada 166 universiti di Turki yang turut dibangunkan menerusi harta wakaf. Malah, turut dirujuk adalah kejayaan umat Islam di negara jiran, Singapura, sebagai golongan minoriti membina masjid serta keperluan umat Islam lain melalui sumbangan wakaf daripada kaedah potongan gaji pekerja Islam.

Malah, dewan diberi gambaran indah apabila Timbalan Presiden ANGKASA, Datuk Alias Ambia, membayangkan kemampuan pertubuhan koperasi itu menjana dana daripada lapan juta ahlinya yang mewakafkan

hanya RM1 seorang.

Pengumpulan dana wakaf

Lalu timbul persoalan apakah amalan itu tidak boleh dilaksanakan di negara ini iaitu pengumpulan dana wakaf melalui potongan gaji seperti potongan untuk Kumpulan Wang Simpanan Pekerja (KWSP). Bagaimanakah pembangunan yang mampu dilaksanakan untuk membangunkan ekonomi umat Islam di Malaysia andainya ia boleh dilaksanakan.

Menjawab persoalan itu, Ketua Pengarah IKIM, Datuk Nik Mustapha Nik Hassan, berkata wakaf adalah amalan sukarela dan tidak dilaksanakan melalui sistem perundangan kerana salah satu prinsip digalakkan berwakaf adalah untuk menyucikan jiwa selain menjadi saham akhirat kepada umat Islam yang percaya kepada Hari Kiamat.

Katanya, semangat sukarelawan dan kesediaan menyumbang atau mewakafkan harta hanya dapat dibangkitkan apabila umat Islam memahami prinsip serta konsep wakaf sebagai dasar utama agenda pembangunan ekonomi umat Islam.

“Kita ada wakaf tunai, namun semangat untuk turut serta menyumbang melalui wakaf tunai itu belum hebat lagi. Sebabnya mereka ingin tahu ke mana sumbangan wakaf itu pergi, kepada siapa dana itu diberikan. Oleh itu, perlu ada organisasi yang dipercayai oleh rakyat, barulah mereka ingin menyumbang.

“Kehilangan nilai Islam dalam masyarakat disebabkan kurang serius dan profesionalisme dalam pengurusan harta wakaf”

Dr Mohd Nazari Ismail
Ketua Jabatan Fakulti Perniagaan dan Perakaunan UM

“Sekarang kita berdepan krisis kredibiliti sedangkan pengurusan wakaf perlu ada ketelusan. Pada masa sama, pandangan individu juga mengenai wakaf perlu lebih jelas iaitu wakaf

untuk kepentingan umum dan manfaatnya bersifat berterusan,” katanya.

Justeru katanya, amalan berwakaf perlu digalakkan kepada umat Islam

‘Cari untung, tak ketepi agama’

W akaf korporat bukan bertujuan meningkatkan taraf hidup orang miskin atau amal jariah saja, tetapi bagi menghasilkan kekayaan dan memberi nilai tambah kepada pembangunan untuk memenuhi maslahat syariah.

Presiden Dewan perdagangan Islam Malaysia (DPIIM), Tan Sri Muhammad Ali Hashim, berkata wakaf korporat membolehkan nilai keadilan, rahmat dan ihsan yang dikurniakan agama Islam dalam amalan wakaf dimanfaatkan sepenuhnya termasuk membantu masyarakat menjadikan perniagaan sebagai tonggak kegiatan ekonomi.

Justeru katanya, semangat wakaf perlu diterjemahkan dalam kehidupan

umat Islam supaya institusi wakaf dan korporat dapat menjadi institusi teras kepada usaha memperkasa ekonomi, meningkatkan pembangunan serta menjana harta kekayaan berpanjangan umat Islam di negara ini.

“Sekarang ini bidang korporat ialah memimpin dunia. Polisi sekarang ialah membina perniagaan berteraskan keadilan, pada keuntungan daripada faedah, pada keadilan dan suka atau tidak, ia akan kikatnya dan suka atau tidak, ia akan kikatnya kepada kehidupan kita.

“Oleh itu, sektor swasta menjadi perhatian di setiap pelusuk dunia, jadi kita perlu kepada alternatif seperti korporat wakaf. Ini memerlukan penstrukturan semula korporat yang me-

nekankan jihad perniagaan yang mencari untung tanpa hilang pegangan agama,” katanya.

WANCorp wakaf korporat pertama

Muhammad Ali yang juga diarahkan sebagai ‘Guru Wakaf’ adalah pengasas dan Pengerusi Wakaf An-Nur Corporation Bhd (WANCorp) iaitu wakaf korporat pertama ditubuhkan di Malaysia. Pada akhir 2011, nilai aset (WANCorp) berjumlah RM502 juta.

Bekas Presiden dan Ketua Eksekutif Johor Corporation (JCorp) itu memimpin JCorp selama 28 tahun hingga menjadi organisasi korporat utama negara. Beliau juga telah menghasilkan tiga buku dan bukunya Khalifah Ganti

'Wakaf sangat relevan'

HARIAN
METRO, 10/4/14

Kuala Lumpur: Wakaf perlu diberi kedudukan lebih kukuh dalam polisi makro ekonomi arus perdana negara kerana ia adalah instrumen kewangan awam yang boleh digunakan dalam merangka dasar ekonomi terbabit dan mampu menyumbang ke arah pembangunan pertumbuhan ekonomi.

Ketua Pengarah Institut Kefahaman Islam Malaysia (IKIM) Datuk Nik Mustapha Nik Hassan berkata, wakaf dilihat sebagai mekanisme pelaburan simpanan dengan dana dialihkan daripada penggunaan serta dilaburkan dalam aset produktif daripada perspektif ekonomi makro.

"Wakaf bukan saja melampaui institusi Islam yang menyokong umatnya dalam melaksanakan tanggungjawabnya, malah menawarkan manfaat merangkumi daripada aspek ekonomi, perdagangan,

pendidikan, kesihatan, sosial dan rohani," katanya pada Seminar Mempromosikan Wakaf sebagai instrumen arus perdana dalam polisi ekonomi negara di sini, semalam.

Acara anjuran IKIM itu menyaksikan pembentangan lima kertas utama berkaitan wakaf yang mana ia dihadiri kira-kira 100 peserta daripada pihak korporat, perbankan, majlis agama dan pelaksana wakaf di seluruh negara.

FAKTA
Wakaf juga mempunyai implikasi positif terhadap pengagihan semula keuntungan

Beliau berkata, mekanisme wakaf adalah sangat relevan dan ia adalah pendekatan dinamik dalam menganjurkan ekonomi masyarakat masa kini kerana menggalakkan individu melakukan kebaikan dengan menderma sebahagian harta untuk digunakan bagi kegunaan awam yang boleh memberi kemudahan generasi masa kini dan akan datang.

Menurutnya, jika institusi

wakaf ini dianjurkan secara teratur dan efektif maka ia membantu kerajaan dalam mengurangkan saiz perbelanjaan kerana sumbangan sukarela untuk kemudahan orang awam ini akan menggantikan beban dan tanggungjawab yang dihadapi kerajaan.

"Komitmen masyarakat aktif terhadap keperluan ekonomi sosial akan mencegah kerajaan daripada melakukan pinjaman melalui kewangan defisit yang lazimnya akan membawa implikasi negatif kepada kerajaan terutama dalam keadaan ekonomi dunia tidak menentu pada masa kini.

"Wakaf juga mempunyai implikasi positif terhadap pengagihan semula keuntungan dalam masyarakat di mana ia lebih baik berbanding pengagihan semula melalui cukai dan perbelanjaan pemindahan kerajaan kerana instrumen cukai memiliki implikasi kos lebih besar dalam pelaksanaannya serta boleh menjadi beban besar kepada kerajaan," katanya.

Simpanan MYOB Berpusat

Unit ICT IKIM telah membangunkan simpanan berpusat bagi sistem MYOB untuk kegunaan Bahagian Kewangan dan Pelaburan. Simpanan ini berfungsi bagi membantu penggunaan sistem MYOB dengan lebih berkesan dan pantas serta boleh dicapai tanpa sebarang masalah terputus talian. Kaedah ini juga membantu Bahagian Kewangan dan Pelaburan dalam melakukan *backup* data MYOB secara berkala secara automatik dengan cara *virtual server* berbanding kaedah manual sebelum ini. Simpanan berpusat ini juga menjamin kesediaan dan memastikan integriti data yang sama kepada semua pengguna sistem MYOB tersebut.

Centralised MYOB Storage

The IKIM ICT Unit has developed a centralised storage for the MYOB system for the use of the Finance and Investments Unit. The storage functions to assist in a more effective and faster usage of the MYOB systems without any problems in line cuts. Such a technology also helps the Finance and Investments Unit in backing up their MYOB data on a regular basis automatically by virtual server compared to the manual method prior to this. The centralised storage also guarantees similar readiness and ensures data integrity to all users of MYOB system.

Sistem Pelaporan Akademik

Sistem Pelaporan Akademik dibangunkan bagi memenuhi kehendak pegawai akademik di IKIM dalam membantu menghasilkan status laporan terkini mengenai aktiviti yang dilakukan. Sistem ini dibangunkan sendiri oleh Unit ICT IKIM dan telah mula digunakan apabila Fasa 1 pembangunan selesai pada tahun 2014. Pembangunan bagi Fasa 2 akan bermula tahun 2015 bagi menambah fungsi-fungsi baru kepada sistem tersebut.

DNS berasaskan awan

Sistem Nama Domain (*Domain Name System*) atau DNS merupakan sistem yang menyimpan maklumat mengenai nama hos dan nama domain di jaringan, seperti di Internet. Paling penting, ia memberikan alamat IP bagi setiap nama hos, dan senarai pelayan penukaran mel (*mail exchange server*) yang menerima mel bagi setiap domain. DNS memainkan peranan penting bagi Internet, kerana perkakasan memerlukan alamat IP untuk melaksanakan penghalaan (*routing*), tetapi manusia menggunakan nama hos dan nama domain, sebagai contoh, Penentu Sumber Seragam (*Uniform Resource Locator*) URL dan alamat e-mail.

Pada awal penubuhan IKIM, sistem DNS atau Domain Name System milik IKIM adalah berasaskan sistem pelayan yang dihoskan sendiri oleh IKIM. Sistem ini juga telah lama dan ketinggalan apabila ianya tidak pernah dinaiktaraf sejak dari awal. Oleh itu, Unit ICT IKIM telah mengambil inisiatif untuk menaiktaraf sistem ini kepada sistem yang berasaskan awan di *CloudFlare* bagi menjamin kesediaan sistem tersebut serta memastikan sistem tersebut sentiasa dikemaskini.

Academic Reporting System

The System is developed to meet the needs of IKIM academic staff in assisting them to produce the latest status report on activities carried out. The system has been developed by IKIM ICT Unit and has been in use when Phase 1 development was completed in 2014. Development for Phase 2 starts in 2015 to increase new functions to the system.

Cloud-based DNS

The Domain Name System or DNS is a system that stores information on the host name and domain in the network, such as on the Internet. Most importantly, it gives the IP address for every host name, and mail exchange server that receives mail for every domain. DNS plays an important role for the Internet, as the hardware devices requires an IP address for routing, but the host and domain names are used, as an example, the Uniform Resource Locator URL and e-mail address.

From the outset of the establishment of IKIM, the Domain Name System owned by IKIM is based on the server system hosted by IKIM. The System is already old and outdated as it has never been upgraded. Thus, IKIM ICT Unit has taken the initiative to upgrade the system to one based on cloud at CloudFlare to ensure system readiness as well as continuously updated.
