## **SEMINAR “FARAID & PERANCANGAN PERWARISAN ISU HARTA BEKU DAN PENYELESAIANNYA DI MALAYSIA” pada 29-30 Mac 2016 di Dewan Besar IKIM Kuala Lumpur**

**H**UKUM Faraid merupakan satu hukum yang amat jelas perincinya di dalam al-Quran. Pematuhan kepada hukum ini seperti mana yang digariskan oleh al-Quran menjamin keharmonian dan kesejahteraan di kalangan pewaris. Isu perbalahan dalam kalangan waris dan pengabaian serta penafian dari segi hak, kegagalan mereka untuk mengurus dan merancang pembahagian pusaka seperti mana yang dianjurkan oleh Syari'ah menyebabkan banyak harta umat Islam menjadi beku.

**En. Muhammad Hisyam Mohamad,** Fellow, Pusat Kajian Ekonomi dan Kemasyarakatan, Institut Kefahaman Islam Malaysia (IKIM) membentangkan kertas kerja bertajuk “Pembekuan Harta: Kesan ke atas Ekonomi Umat Islam”.

**Mr. Muhammad Hisyam Mohamad,** Fellow IKIM Centre for Economics and Social Studies (EMAS) presenting a paper titled “Freezing of Assets: The Effect’s on the Muslims’ Economy”.

Adalah penting bagi masyarakat Islam untuk mengetahui cara pengurusan harta pusaka dan merancang pewarisan yang baik dan berkesan. Justeru selain mengetahui aspek pembahagian dari segi hukum, kita juga perlu tahu tentang pengurusan pusaka dari sudut teknikal dan juga prosedur semasa yang digunakan di negara ini. Ini kerana perancangan pewarisan yang baik bukan terhenti setakat peringkat pembahagian harta semata-mata. Malah ia turut merangkumi aspek pengekalan dan pengembangan harta pusaka supaya kebaikan harta tadi bukan sahaja dapat memberi manfaat kepada pewaris tetapi juga kepada si pemilik harta yang telah meninggal dunia.

## **SEMINAR ON “FARAID & INHERITANCE PLANNING: ISSUES ON FROZEN ASSETS IN MALAYSIA” ON 29-30 MARCH 2016 AT IKIM GRAND HALL KUALA LUMPUR**

**T**HE Faraid law is a clear law detailed in the Quran. Compliance with it as outlined by the Quran ensures harmony and well-being among heirs. Contentious issues among beneficiaries and neglect and denial of rights, failure to manage and plan division of inheritance as enjoined by the Shari'ah have led many Muslim properties to become frozen assets.

*It is important for Muslims to know how to manage inherited estates and draw up a good and effective inheritance plan. Thus, in addition to the legal aspects of the division, we also need to know the management of inheritance from the technical standpoint as well as the current procedures adopted in this country. This is because good inheritance planning is not confined to the mere division of property. It also covers aspects of preservation and development of the estate so that the estate would not only benefit the beneficiaries, but also the owner of the property who is deceased.*

## PROGRAM BERTEMAKAN PEMBINAAN NEGARA BERDASARKAN PERLEMBAGAAN PERSEKUTUAN

**SEPAJANG JANUARI – MAC 2016**, 15 program, termasuk syarahan dan pembentangan kertas kerja anjuran agensi kerajaan dan juga badan bukan kerajaan telah disampaikan di bawah tema Pembinaan Negara berdasarkan Perlembagaan Persekutuan. Tema ini meliputi isu-isu berkaitan falsafah pembinaan negara dan seterusnya pembinaan peradaban Malaysia.

Sesungguhnya kefahaman tentang Perlembagaan amat penting dan ia hendaklah disampaikan kepada seluruh lapisan masyarakat. Dalam kedudukan semasa, kelangsungan negara amat bergantung kepada kesungguhan Perlembagaan. Maka seharusnya Perlembagaan itu diisi dan diterjemahkan dengan prinsip-prinsip Syari'ah. Tiga daripada program tersebut ialah berkaitan Maqasid Syari'ah dalam falsafah dan pembinaan negara. Program-program tersebut telah dianjurkan oleh Biro Tatanegara (BTN) di Jabatan Perdana Menteri bersama agensi-agensi kerajaan, seperti Jabatan Kehakiman Syari'ah (23 Mac 2016, di Kem Bina Negara Tanjung Rhu, Sepang). Dengan tema serupa, dua bengkel bertemakan Maqasid Syari'ah telah laksanakan oleh BTN kepada pegawai-pegawaiannya (12 Februari di Akademi Kenegaraan, Jalan Bellamy dan 17–18 Februari 2016 di Kem Bina Negara Kuarters KLIA, Sepang). Sesungguhnya dalam keadaan semasa, Maqasid Syari'ah ini amat penting

untuk difahami oleh penjawat awam kerana mereka yang bertanggungjawab dalam menyampaikan pengisian pembinaan negara. Dengan memahami Maqasid Syari'ah, maka apa juga polisi kerajaan boleh dilaksanakan dengan kefahaman tentang hala tuju negara berdasarkan kepada kefahaman tentang Islam secara holistik.

Sepanjang Januari-Mac juga sebanyak sepuluh program, termasuk pembentangan kertas kerja dan syarahan telah disampaikan dengan tema kedudukan Islam dan amalannya di tanahair. Pada 3 Mac 2016, forum yang bertemakan Peranan Institusi Agama telah dianjurkan secara bersama oleh Pejabat Mufti Kuala Lumpur dan IKIM di Dewan Besar IKIM. Fokus forum ini ialah peranan institusi agama dalam membentuk peradaban negara. Ia telah menjelaskan tentang pentingnya peranan institusi agama seperti institusi Mufti dan institusi pemikir, seperti IKIM dalam menyumbang kepada pembinaan peradaban negara. Peranan institusi agama ini juga diharap dapat disokong dan didokong oleh setiap lapisan masyarakat Malaysia.

Tema yang dibentangkan tersebut telah menyerlahkan sumbangan IKIM kepada masyarakat dan negara dalam memenuhi aspirasi penubuhan IKIM iaitu Memahami Islam Membina Peradaban.

## PROGRAMMES ON NATION-BUILDING BASED ON THE FEDERAL CONSTITUTION

**THROUGHOUT January until March 2016**, 15 programmes, including lectures and presentations organised by government agencies and non-governmental organisations were conducted under the theme Nation-Building Based on the Federal Constitution. This theme comprised issues related to the philosophy of nation-building and the subsequent building of a Malaysian civilisation.

Indeed, an understanding of the Constitution is very important and it should be communicated to all levels of society. In the current position, the survival of the country is highly dependent on the concertedness of the Constitution. The Constitution should then be completed and translated with the principles of the sharia'h. Three such programmes were related to the maqasid al-shari'ah in philosophy and nation building. The programmes were organised by the National Civics Bureau (BTN) of the Prime Minister's Department together with government agencies, such as the Shari'ah Judiciary Department (23 March 2016, at Kem Bina Negara Tanjung Rhu, Sepang). With a similar theme, two workshops themed the Maqasid al-Shari'ah were conducted by BTN to its staff (at Akademi Kenegaraan, Jalan Bellamy on 12 February and Kem Bina Negara Quarters KLIA Quarters on 17 – 18 February 2016). Indeed, in the current circumstances, Maqasid al-Shari'ah is very important to be understood by civil

servants because of their responsibility in delivering the contents of nation-building. By understanding the Maqasid al-Shari'ah, any government policy can be implemented with an understanding of the direction of the country based on a holistic understanding of Islam.

Throughout January – March, a total of ten programmes, including presentations and lectures had been delivered under the theme of the position of Islam and its practice in the country. On 3 March 2016, a forum on the theme of "The Role of Religious Institutions" was jointly organised by the Office of the Kuala Lumpur Mufti and IKIM at the IKIM Grand Hall. The focus of the forum was the role of religious institutions in shaping the civilisation of the country. It clarified the importance of the role of religious institutions such as Mufti institutions and think-tanks, such as IKIM, in contributing to the building of the civilisation of the country. The role of religious institutions is also expected to be supported and upheld by all levels of Malaysian society.

The themes that were presented highlighted the contributions of IKIM to the public and the nation in fulfilling the aspirations of the establishment of IKIM which is Understand Islam Build Civilisation.

# FENOMENA EL NINO

## The El Nino Phenomenon

**R**AMAI antara kita yang mengeluh apabila berlaku cuaca panas. Apakah punca sebenar kepanasan yang berlaku di negara kita sekitar awal tahun ini? Punca sebenar yang berlaku ini ialah fenomena El Nino. Apakah fenomena El Nino itu?

Menurut Jabatan Meteorologi Malaysia (MetMalaysia) El Nino adalah fenomena lautan yang berlaku setiap dua ke tujuh tahun. Aras laut yang panas menggantikan aras laut yang kebiasaannya sejuk di luar pantai Barat Peru, Amerika Selatan. Pemanasan lautan ini didapati berlaku di kawasan yang lebih luas meliputi Pasifik Tengah dan Timur serta mempunyai kaitan dengan peristiwa cuaca lebih kering dari normal. Sementara di Pasifik Tengah dan Timur berhampiran Khatulistiwa kebiasaannya mengalami lembap.

Secara lazimnya, El Nino berlaku untuk tempoh enam hingga 18 bulan. Biasanya ia terbentuk pada pertengahan tahun, berada di kemuncak pada akhir tahun dan menjadi lemah menjelang awal tahun berikutnya. El Nino yang mempunyai keamatan yang sama tidak semestinya menghasilkan corak iklim yang sama.

Menurut kenyataan Media Menteri Kementerian Sains, Teknologi dan Inovasi (MOSTI) pada 8 Januari 2016, cuaca panas dan kering kini berlaku di Sabah dan bahagian Limbang dan Miri di Sarawak. Fenomena El Nino yang berlaku ini dijangka boleh menyebabkan pengurangan jumlah hujan antara 20% – 60% dan kenaikan suhu sekitar 0.5 darjah Celsius hingga 2.0 darjah Celsius berbanding biasa.

Menurut Berita Harian Online pada 28 Mac 2016 pula melaporkan Lubuk Merbau Perak mencatatkan bacaan suhu tertinggi berikutnya cuaca panas melampau yang melanda negara ketika ini dengan bacaan 37.9 darjah Celsius. Menurut kenyataan MOSTI, Langkawi masih mencatatkan bilangan hari tanpa hujan paling lama setakat ini iaitu 41 hari fenomena El Nino ini.

**M**ANY have complained due to the recent hot weather. What is the real cause of heat to the country earlier this year? The exact cause of the recent situation is the El Nino phenomenon. What is El Nino phenomenon?

According to the Meteorological Department of Malaysia (MetMalaysia), El Nino is an ocean phenomenon that occurs every two to seven years. Hot sea level replaces the usual cold sea level off the coast of western Peru, South America. The ocean warming is found to occur in the wider region, including Central and Eastern Pacific and has to do with a drier than normal weather, while places in central and eastern Pacific near the Equator generally experience humidity.

In general, El Nino occurs for a period of six to 18 months. Usually, it is formed in the middle of the year, peaked at the year end and weakened by early of the following year. El Nino, with similar intensity, does not necessarily produce the same climate patterns.

According to a media statement by the Minister of the Ministry of Science, Technology and Innovation (MOSTI) on 8 January 2016, hot and dry weather occurred in Sabah and Limbang and Miri in Sarawak. The El Nino phenomenon can lead to a reduction in the amount of rainfall between 20% – 60% and a temperature rise of about 0.5 degrees Celsius to 2.0 degrees Celsius as compared to normal.

Berita Harian Online on 28 March 2016 reported that Lubuk Merbau Perak recorded the highest temperature reading due to extreme hot weather that hit the country at 37.9 degrees Celsius. According to a statement from MOSTI, Langkawi has recorded the longest number of days without rain at 41 days from the El Nino phenomenon.
