INTRODUCTION:

IKIM INTERNATIONAL SEMINAR UNLOCKING WISDOM OF ISLAM FOR COMPREHENSIVE DEVELOPMENT

TUESDAY AUGUST 23, 2022, GRAND HALL, IKIM

What paths can be recommended based on the wisdom of Islam to shift the current destructive development model of unrestrained economic growth to one that embraces living in harmony with the environment leading to happiness and balanced living? This question is particularly critical for the Muslim world which has largely pursued a path of development that is based on a vision and model that is often devoid of spiritual and ethical considerations, or wisdom as understood in Islam. We are in an opportune time to rethink our commonly held notions about 'development' to include 'wisdom of Islam' in light of emerging domestic and global challenges, departing from the fragmented vision which sees the personal well-being, the family, the society, and the environment in isolation. Thus we hope that this seminar, in conjunction with IKIM's 30-year Anniversary, will rejuvenate IKIM's role as an able and strategic partner to catalyze the right path of development for Muslims in Malaysia and worldwide.

OBJECTIVES :

- 1.To shed light on the relevance of wisdom in Islam in relation to the various contemporary thinking and conceptions of development; and**
- 2.To expose participants to the great ideas from the Muslim intellectual legacy which are relevant to re-envision the meaning of development in light of present-day challenges.**
- 3.To serve as a safe space for speakers and participants to explore possibilities of expanding the frontiers of development thinking.**
