■ YAB Dato' Sri Mohd Najib Tun Abdul Razak, Perdana Menteri Malaysia menyampaikan ucapan perasmian di persidangan antarabangsa pada 20 Februari.

■ YAB Dato' Sri Mohd Najib Tun Abdul Razak, the Prime Minister of Malaysia delivered a speech at the International Conference on 20 February.

BUAT julung kalinya Institut Kefahaman Islam Malaysia (IKIM) menganjurkan Persidangan Antarabangsa "Religion and Civilisational Sustainability" dari 20–21 Februari di Dewan Besar IKIM bersempena dengan sambutan ulang tahun ke-25 IKIM. Persidangan antarabangsa ini amat bertepatan dengan situasi semasa yang memerlukan penyatuan kefahaman agama dan etika moral dengan pemikiran konvensional dalam menangani isu-isu penting yang menggugat kelestarian dan ketamadunan. Objektif utama persidangan ini adalah untuk memberi kefahaman dimensi agama dalam isu-isu sains dan sosial yang menyumbang kepada kelestarian peradaban. Persidangan ini juga amat penting dalam menyediakan platform strategik bagi saintis, golongan agama dan penggubal dasar untuk berdialog dan melibatkan diri dalam isu-isu kritikal berkaitan sains, agama dan pembangunan sosio-ekonomi yang merupakan pendekatan utama kerajaan dalam agenda transformasi nasional (TN50) ke arah kesejahteraan masyarakat dan pembentukan negara yang berdaya saing menjelang 2050.

Persidangan selama dua hari ini telah dirasmikan oleh YAB Perdana Menteri Malaysia, Dato' Sri Najib Tun Abdul Razak. Beliau menegaskan kepentingan dialog antara sains dan agama, serta perlunya golongan agamawan untuk terlibat sama dalam pembangunan negara melalui TN50 sejajar dengan tuntutan Islam (maqasid al-syari'ah) yang diukur melalui Indeks Syari'ah Negara misalnya. YAB Perdana Menteri turut melihat peranan besar IKIM sebagai "thought leader" dalam memberi kefahaman Islam yang menyeluruh kepada semua lapisan masyarakat. Dalam ucapannya, Perdana Menteri berharap agar persidangan seumpama ini dapat dijadikan landasan kukuh dalam mencari idea-idea baharu ke arah penyatuan ummah dan negara bangsa yang majmuk, serta keharmonian kefahaman agama dengan pemikiran saintifik dalam menangani isu-isu penting yang menggugat kelestarian dan ketamadunan.

Menurut Ketua Pengarah IKIM, Datuk Prof. Dr. Azizan Baharuddin, persidangan antarabangsa kali ini memberi tumpuan khusus terhadap tema sambutan 25 tahun IKIM iaitu kelestarian dan peradaban yang berhubung rapat dengan gagasan IKIM—Memahami Islam Membina

Peradaban itu sendiri, dan Islam sebagai *ad-deen* atau *total way of life*. Hasil perbincangan dan pemuafakatan daripada persidangan selama dua hari ini amat penting dan relevan kepada para ilmuwan dan juga umat Islam, khususnya dalam menggalakkan persefahaman bersama antara rakyat Malaysia yang berlainan budaya/agama dalam memahami hubungan antara nilai dan pembangunan yang lestari.

Persidangan ini mengumpulkan pakar-pakar dari bidang sains dan sosial dalam dan luar negara, antaranya dari Bahrain, Arab Saudi, Afrika Selatan, Kuwait dan Amerika Syarikat. Sebanyak lapan kertas kerja dibentangkan merangkumi dua sesi ucapnama dan tiga sesi pembentangan melibatkan tema sains, kesihatan dan ekonomi. Perbincangan berkisar berkenaan konsep pembangunan lestari menurut perspektif Islam, pendidikan agama dan sumbangannya terhadap kelestarian peradaban, etika kesihatan dan rawatan pencegahan dari aspek perubatan yang menyeluruh, serta peranan waqaf ke arah pembangunan ekonomi negara yang mapan.

Empat (4) buah buku dan rekabentuk logo baharu penerbitan karya asli oleh Penerbit IKIM turut dilancarkan oleh YAB Perdana Menteri. Salah satu buku yang dilancarkan iaitu *Science for Sustainable Development: Islamic and Interfaith Perspectives (Sains untuk Kelestarian Pembangunan: Perspektif Islam dan Rentas Agama)* mengupas prinsip dan pendekatan Islam (*ad-deen*) dalam pembangunan lestari, merangkumi konsep dan tadbir urus serta peranan bidang ekonomi dan etika sebagai asas kritikal ke arah pembangunan yang mapan. Dalam majlis itu juga, YAB Perdana Menteri turut melancarkan buku *IKIM & Alam Sekitar: 25 Tahun Menghijau Minda* yang mendokumentasikan sumbangan IKIM dalam memberi kefahaman Islam dan kesedaran kepada masyarakat tentang aspek penjagaan dan pemuliharaan alam sekitar. Buku tersebut juga memaparkan semua aktiviti dan penglibatan IKIM dalam memperjuangkan isu-isu berkenaan alam sekitar sejak awal penubuhannya dari tahun 1992 sehingga kini. Buku-buku lain yang turut dilancarkan ialah *Islam and the New Era of ASEAN (Islam dan Era Baharu ASEAN)* dan *Kecelaan Tipu Daya* iaitu terjemahan dari *Kitab Dhamm Al-Ghurur* nukilan Imam Al-Ghazali.

INTERNATIONAL CONFERENCE ON "RELIGION & CIVILISATIONAL SUSTAINABILITY"

FOR the first time, the Institute of Islamic Understanding Malaysia (IKIM) organised the International Conference on "Religion and Civilisational Sustainability" from 20–21 February at IKIM Grand Hall in conjunction with its 25th anniversary celebration. The international conference is in accordance with the current situation which requires a consolidation of understanding of religion and moral ethics with conventional thinking in dealing with important issues that threaten sustainability and civilisation. The main objective of the conference is to provide understanding of religious dimensions in science and social issues which contribute to sustainability of civilisation. The conference is also important in providing strategic platforms for scientists, religious groups and policy-makers to conduct dialogues and engage in critical issues regarding science, religion and socio-economic development which is the main approach taken by the government in the National Transformation Agenda (TN50) towards community welfare and the creation of a competitive nation by 2050.

The two-day conference was officiated by YAB the Prime Minister of Malaysia, Dato' Sri Najib Tun Abdul Razak. He emphasised the importance of dialogue between science and religion, as well as the need for religious groups to be involved in the development of the country through TN50 in line with Islamic requirements (maqasid al-shari'ah) as measured by the Shari'ah Index. The YAB Prime Minister also saw the role of IKIM as a "thought leader" in providing comprehensive understanding of Islam for all levels of society. In his speech, the Prime Minister hoped that such a conference would be a solid foundation in finding new ideas towards the unity of the ummah and pluralistic nation, as well as harmonious religious understanding with scientific thinking in addressing crucial issues that threatened sustainability and civilisation.

According to IKIM Director-General, Datuk Prof. Dr. Azizan Baharuddin, the International Conference this time focused specifically on IKIM's 25th anniversary theme that is sustainability and civilisation which are closely linked to IKIM's ethos—Understand Islam Build Civilisation, and Islam as an ad-deen or total way of life. The output derived from the discussions and consensus from the two-day conference is very important and relevant to scholars as well as Muslims, especially in promoting mutual understanding amongst Malaysians of different cultures/religions in understanding the relationship between values and sustainable development.

The conference gathered experts from both fields of science and social locally and internationally, among them from Bahrain, Saudi Arabia, South Africa, Kuwait and the United States. A total of eight working papers were presented covering two keynote addresses and three presentation sessions on science, health and economic themes. Discussions revolved around the concept of sustainable development based on Islamic perspectives, religious education and its contribution to the sustainability

MUZAKARAH PAKAR: ETIKA PENGUBAHSUAIAN GENETIK PADA MIKROALGA

BUAT julung kalinya Institut Kefahaman Islam Malaysia (IKIM) dengan kerjasama TNB Research Sdn Bhd telah menganjurkan satu muzakarah pakar pada 9 Mac yang mensasarkan kepada topik mikroalga untuk tujuan Pengumpulan dan Penyimpanan Karbon atau Carbon Capture and Storage (CCS) dan juga Pengumpulan dan Penggunaan Karbon atau Carbon Capture Utilisation (CCU) yang sudah lama diguna pakai oleh negara-negara maju sejak tahun 2000.

Matlamat muzakarah ini adalah mewujudkan kefahaman Islami mengenai isu pengubahsuaian genetik dan penilaian risiko alam sekitar di samping dapat memberikan input dasar-dasar dan pembentukan prosedur kendalian kepada pihak-

pihak yang terlibat dalam pelaksanaan CCS/CCU dan juga industri berasaskan bioteknologi di Malaysia.

Objektif muzakarah ini adalah memahami apakah yang dimaksudkan dengan CCS dan CCU di samping mengetahui apakah kesan mikroalga ini kepada alam sekitar, selain mengenal pasti isu-isu agama, metafizik, etika, sains, hukum-hakam, perundangan dan batas-batas guna-pakai berkaitan pengubahsuaian genetik mikroalga dalam konteks tempatan dan luar negara. Muzakarah ini juga diharap dapat menjadi platform bagi mewujudkan kefahaman Islam mengenai isu pengubahsuaian genetik sekaligus memberikan input kepada industri berasaskan bioteknologi di Malaysia.

EXPERT CONSULTATION: GENETIC MODIFICATION ETHICS ON MICROALGAE

FOR the first time, the Institute of Islamic Understanding Malaysia (IKIM) in collaboration with TNB Research Sdn Bhd organised an expert consultation on 9 March which focused on the topic microalgae for the purpose of Carbon Capture and Storage (CCS) and Carbon Capture Utilisation (CCU) that have long been adopted by developed countries since 2000.

The aim of the consultation was to create understanding of Islam on the issue of genetic modification and environmental risk assessment as well as to provide policy inputs and the establishment of operational procedures

to parties involved in the implementation of CCS/CCU and biotechnology-based industries in Malaysia.

The purpose of the consultation was to understand the meaning of CCS and CCU and to know the effects of microalgae on the environment, apart from identifying religious issues, metaphysics, ethics, science, laws and regulations, legal issues and restrictions related to usage of microalgae genetic modification in local and foreign context. It is hoped that the consultation can be a platform to create understanding of Islam on genetic modification as well as providing input to biotechnology-based industries in Malaysia.

DIALOG ANTARA AGAMA "TINDAK BALAS KOMUNITI AGAMA TERHADAP BANTUAN BENCANA"

INSTITUT Kefahaman Islam Malaysia (IKIM) telah menganjurkan Dialog Antara Agama "Tindak Balas Komuniti Agama Terhadap Bantuan Bencana" pada 28 Mac.

Objektif program ini adalah bagi memahami kekuatan setiap komuniti agama di Malaysia dalam memberikan bantuan semasa bencana selain daripada membincangkan kekangan yang mereka hadapi dan bagaimana kekangan boleh di atasi. Disamping itu, ia juga membantu dalam mengutarakan cadangan dasar untuk meningkatkan penglibatan komuniti agama terutamanya dalam keseluruhan kerangka pengurusan bencana negara.

Penyertaan daripada pelbagai wakil NGO, sukarelawan/sukarelawati, agensi kerajaan berkaitan dan wakil-wakil media seperti Islamic Aid Malaysia, Pertubuhan Belia Sikh Malaysia, Kairos Dialogue Network, Malaysian Youth Council dan Majlis Perundangan Malaysia Agama Buddha, Hindu, Sikh dan Tao membantu program dialog ini mencapai objektifnya.

Melihat situasi di Malaysia, komuniti agama telah memainkan peranan yang besar dalam memberikan pelbagai bantuan sebelum, semasa dan selepas bencana, terutama dalam tempoh masa 72 jam selepas bencana berlaku tetapi tidak banyak usaha yang dijalankan untuk mendokumentasikan peranan tersebut. Oleh itu, dialog yang dianjurkan IKIM dilihat sebagai satu usaha dalam memahami peranan individu, organisasi dalam memberikan bantuan bencana dan seterusnya dalam kerangka pengurusan bencana negara secara keseluruhan.

- YBhg. Datuk Prof. Dr. Azizan Baharuddin, Ketua Pengarah IKIM menyampaikan ucapan aluan.
- YBhg. Prof. Dr. Azizan Baharuddin, IKIM Director-General delivered the welcoming speech.

INTERFAITH DIALOGUE ON "RELIGIOUS COMMUNITIES RESPONSE TOWARDS DISASTER RELIEF"

THE Institute of Islamic Understanding Malaysia (IKIM) organised the Interfaith Dialogue on "Religious Community Response towards Disaster Relief" on 28 March.

The objective of the programme was to understand the strength of every religious community in Malaysia in providing assistance during disaster and the constraints faced and how to overcome them. In addition, it also helped in posing policy recommendations to enhance the involvement of religious communities, especially in the overall disaster management framework.

Participation from various NGO representatives, volunteers, related government agencies and media representatives such as Islamic Aid Malaysia, Malaysian Youth Sikh Society, Kairos Dialogue Network, Malaysian Youth Council and Malaysian Buddhist Hindu, Sikh and Tao Legislative Council, also helped this dialogue programme to achieve its objectives.

In Malaysia, religious communities play a great role in providing various assistance before, during and after a disaster, especially within 72 hours after it struck; however not much effort has been made in documenting the role. Hence, the dialogue organised by IKIM is seen as an effort to understand the role of individuals, organisations in providing disaster relief and subsequently the overall disaster management framework.

PROGRAM JR. ECOLOGY CAMP

INSTITUT Kefahaman Islam Malaysia (IKIM) telah menganjurkan dua siri Program Jr. Ecology Camp dengan tujuan untuk meningkatkan kesedaran masyarakat tentang peri pentingnya alam sekitar. Dua (2) siri program ini telah diadakan di Hutan Pendidikan Alam UKM, Bangi pada 19 Mac dan siri kedua diadakan pada 25 Mac di Hutan Eko Rimba Kuala Lumpur, Bukit Nanas.

Penganjuran bengkel ini adalah bagi memberi pendedahan kepada para pelajar secara langsung dengan ekologi dan supaya pelajar dapat memahami konsep ekologi dengan baik melalui aktiviti-aktiviti secara teori dan praktikal yang diketengahkan melalui bengkel ini.

Bengkel ini juga turut dilaksanakan dengan mengambil kira keperluan pengajaran dan pembelajaran (P & P) yang berasaskan Kemahiran Berfikir Aras Tinggi (KBAT), selain menggunakan kaedah "learning by doing" dengan memindahkan kelas pembelajaran normal kepada kelas di luar darjah atau dengan lebih tepat lagi "kelas di dalam hutan".

Sesi "games alam" dan aktiviti kajian flora dan fauna telah dilaksanakan oleh Cikgu Jinggo (Jurulatih Eko Kids) yang mana para peserta perlu melukis jenis daun, corak kulit pokok dan biji benih atau buah yang dijumpai di dalam hutan. Semasa berada di dalam hutan, para peserta turut diminta mengenalpasti jenis serangga atau haiwan yang mungkin menghuni hutan berkenaan berdasarkan keadaan persekitaran hutan berkenaan.

JR. ECOLOGY CAMP PROGRAMME

THE Institute of Islamic Understanding Malaysia (IKIM) organised two series of the Jr. Ecology Camp Programme with a view to raising public awareness about the importance of the environment. The two-series programme was held at the UKM Nature Education Forest, Bangi on 19 March and the second series was held on 25 March at the Eko Rimba Forest, Kuala Lumpur, Bukit Nanas.

The organisation of the workshop was to give direct exposure to students about ecology and that they could better understand the ecological concepts through theoretical and practical activities highlighted through this workshop.

The workshop was implemented by taking into account the needs of teaching and learning (T & L) based on the Higher Level Thinking Skills, as well as using the "learning by doing" technique by transferring normal learning classes to classes outside or more accurately "class in the forest".

The "Nature games" sessions and flora and fauna research activities were carried out by Mr. Jinggo (Eko Kids Coach) whereby participants needed to draw the type of leaves, patterns of tree barks and seedlings or fruits found in the forest. While in the forest, participants were also asked to identify the types of insects or animals that might inhabit the forest based on the environment of the particular forest.

- Peserta turut diberi penerangan tentang pokok oleh Cikgu Jinggo.
- Participants were briefed on the subject of trees by Mr. Jinggo.
